FLEXI-DRIVE™

GO

USB 3.0 SUPERSPEED

8 GB 16 GB 32 GB 64 GB

The Flexi-Drive Go is a low price, faster USB3.0 memory stick.
Through the use of a special controller and the implementation of the newest storage technology, the Flexi-Drive GO obtains a read rate of up to 80 MB/s and write speeds of up to 10 MB/s*. This allows data transfer through USB3.0 to be about 10x faster than USB2.0, the memory stick is of course backwards compatible. The stick is available in 8, 16, 32 and 64 GB and offers a large amount of storage in a keychain suitable design, allowing all relevant data to remain close at hand.
Rely on storage solutions from Sharkoon!

Features:

- USB3.0 stick (downwards compatible with USB2.0 and USB1.x)
- Transfer rates USB3.0:
  - Read: max. 80 MB/s
  - Write: max. 10 MB/s*
